## TXPEX6 Thermal Printer

The TXPEX6 is the latest addition to SATO's Horticulture printer line. Designed for the most demanding printing applications, the TXPEX6 easily handles material thicknesses up to 25 mil at speeds up to 12 inches per second. The TXPEX6 is equipped with a 6-inch (305 dpi) print head and can print tag widths up to 10 inches ladder style (sideways). This print orientation promotes faster throughput and maximizes ribbon usage. The TXPEX6 comes standard with USB 2.0, LAN 10/100 Base, IPv6 and USB Host/RTC interfaces.

UL-247

*Stick with the Best*

**Out of the box and ready to go.**

United Label proudly introduces the UL-247 desktop nursery tag and label printer packaged to run with or without a PC. We can design formats, tailored to your specifications, then send to the printer for future recall with the attached keyboard for \$865.

**OR**, using BarTender or NiceLabel, run the UL-247 directly from a PC. Capabilities include database connectivity, graphics, barcodes, QR codes and Mac compatibility.

**Uses many of the same roll stock as our larger table top printers.**

The UL-247 handles full size rolls of stock (3" core with 8" OD rolls) and a 984' ribbon. Print width is 4.25" wide with a 203 dpi resolution at speeds up to 7" per second. These standard features make the UL-247, pound for pound, the fastest, most versatile, user friendly desktop system for low volume requirements on the market today.

**Package includes:**

- UL-247 thermal transfer printer
- External media holder
- USB cable (PC-Driven system)
- Labeling Software (PC-Driven system)
- Pre-formatted labels (Stand-Alone system)
- Keyboard (Stand-Alone system)

**Other Specs:**

- Media width: .75" to 4.5"
- Media length: .4" to 39.3"
- Environmental: 20 - 95% non-condensing relative humidity

**United Label & Sales Corp.**

WWW.UNITEDLABEL.COM

United Label is an official **Master Distributor of SATO Labeling Solutions, Horticultural Division.**  
*formerly Economy Label*

*Standard printer features:*

- Parallel, Serial & USB ports
- **984' ribbon length**
- Dual motor gear driven system
- **2 year limited warranty**
- Upgraded print head
- Mac compatible

*Options:*

- Ethernet LAN interface
- Memory cards
- Bluetooth

*Superior Outdoor Materials:*

- Slip-Ons: 1" x 10" & 3/4" x 7"  
Available in 12 colors
- Pot sticks: 1" x 4-1/2" & 1/2" x 3"  
(13 mils thick)
- Labels: Wide selection for plug trays, pots and cartons.  
Including: Wal-Mart & Home Depot labels

*We're UNITED for Quality & Service*

## CLNX Plus Series Thermal Printer

A revolutionary industrial class of thermal printers utilizing SATO's innovative user design philosophy featuring an easy to use platform for the most demanding customer application and environments.

Preinstalled operational videos viewed on a full color LED screen make training, setup and operation exceptionally easy. Other product key features include; 60° high lift print mechanism for simplified media and ribbon loading, coreless ribbon take up, multiple on-board interface connectivity, collapsible bi-fold side access cover for tight print locations, Energy Star compliant, available in 4" and 6.6" wide models- IDEAL for tags, RFID tags, labels, and signage. **Call your SATO Authorized Master Reseller for compatible ribbons, tags, labels and additional information.**

# TAGGIT® Pro Labeling Design Software and Database

Choosing the right software package is essential to meeting the requirements of your on-demand label printing program.

We'll help you analyze your needs, assist with installation, make modifications to your database, and ensure the settings are correct for your label printing process. Ask us about software and updates.

Whether you need to print bar codes, text, graphic images, color pictures or from a database, TAGGIT® Pro has the features to help you design and print tags and labels with ease. • Microsoft ready • Batch printing • Full-featured database construction capabilities • Utilize TrueType fonts, bar codes, preset formats for all our labels and graphics capabilities • Free phone support 704-644-1660 • Includes plant database designed by our company with over 4500 records. This includes Annuals, Perennials, Trees and Broadleaf Shrubs, and is totally editable to add additional varieties or information.

## Quickly Design and Print Barcode Labels Without IT Help

**Get started and finished with label design today.** The NiceLabel® designer delivers a familiar Microsoft Word-like user experience. This means anyone can quickly design professional labels without previous knowledge of barcoding or designer training. [Learn more about label design.](#)

**Print accurately and consistently without printing errors.** Printing labels with dynamic data is different from printing other types of documents. The labeling system needs to enable production and warehouse staff to print quickly and without errors. NiceLabel comes with an all-in-one printing form that helps users print accurate labels without the risk of error. [Learn more about error-free label printing.\\*](#)

\*Free NiceLabel® edition with limited functionality, exclusively for use with WS4 printers. No database support.

## SATO Horticultural RFID Solutions

RFID Tagging is an ID system that uses radio frequency for object identification and tracking purposes. A radio frequency identification (RFID) system includes:

- An RFID tag – an antenna with an integrated circuit, IC for data storage and communication with the RFID reader.
- A read/write device
- A host application for data collection, storage, processing and or transmission.

RFID uses radio waves to automatically identify and track the tags containing electronically stored information attached to plants or inserted into pots.

The SATO RFID solution allows growers to track and store data about their products. Fitting every shelf, row or plant with a RFID tag, growers will be able to monitor stages and progress of potentially every plant in a greenhouse.

Beyond the greenhouse, shipping containers with RFID identification will enable tracking, from the crop to the market.

In addition to tracking, a RFID system provides information such as place of origin or date of harvest.

# Thermal Printing (T)

Thermal printing is a system whereby heating of ribbon transfers print onto the surface of the print material.

### Print Charges

 Quantity increment charge\* \$3.00/VAR.  
 Consecutive Numbering \$10.00/M  
 Print color other than Black \$5.75/M

# Flexographic Printing (F)

Often abbreviated to flexo, this is a method of printing most commonly used for packaging. A flexo print is achieved by creating a mirrored master of the required image as a 3D relief in a rubber or polymer material. A measured amount of ink is deposited upon the surface of the printing plate (or printing cylinder) using an anilox roll. The print surface then rotates, contacting the print material which transfers the ink.

### Print Charges

Flexo printing - Call for quotation.

### Setup Charges

Plate Setup Charges may apply

### PMS colors

Additional charge for colors not listed.

## STANDARD LABEL DISPENSING DIRECTIONS

# Thermal Slip-On® End to End Tags

LOW DENSITY POLYETHYLENE (TX, TT) 10 MIL

Our Thermal Slip-On® tags are a great way of identifying your product. Once locked, it will stay on the plant material until removed, and thermal print adheres well. The dry printing process means tags are ready to use as they come off the printer. Our Thermal Slip-On® tags can be preprinted flexographically during the manufacturing process or with the thermal transfer printing method.

# Thermal Pressure Sensitive Signs

FLORATHERM (FT)

The floratherm material is designed with an aggressive adhesive with a face stock that resists water and sunlight while providing a superior thermal transfer print surface. The signs can be applied to smooth damp containers, flats, and trays. Signs may be printed with decorative borders and your company name or logo. Signs can also be flood coated to create additional color options.

## Thermal Transfer Pressure Sensitive Paper Labels

The face sheet is thermal receptive and can be floodcoated in various colors to be used in case labeling and for product identification in warehouses. The high-quality face sheet is coupled with an aggressive, permanent adhesive to ensure long-term adhesion of the label. If direct thermal printing is the preferred print method, SATO also offers direct thermal pressure sensitive paper labels for various applications.

## WHAT IS A QR CODE? HOW TO SCAN?

Basically, a QR code works in the same way as a barcode at the supermarket. It is a machine-scannable image that can instantly be read using a Smartphone camera. Every QR code consists of a number of black squares and dots which represent certain pieces of information.

How to scan a QR code with your iPhone, iPad, or iPod touch

1. Open the Camera app from the Home Screen, Control Center, or Lock Screen
2. Select the rear facing camera. Hold your device so that the QR code appears in the viewfinder in the Camera app.
3. Tap the notification to open the link associated with the QR code.

How to scan a QR code on your Android Phone

1. Press and hold the home button.
2. Then tap Lens
3. Point your camera at the QR code.
4. Then tap the magnifying glass icon to scan the QR code
5. Finally, tap the pop-up notification

Blank signs are prepackaged in bundles of 50.

Blank signs are priced per each.

## Galvanized Sign Holders

These signholders and markers are great for identifying plants and advertising specials. They utilize top-locking bars to hold signs in place. Can be a great way to display signs shown on pages 16, 26, 28, 29, 30, and 31.

## T-Stakes and Injection Molded Stakes

**T-Stakes** are produced from 30 mil white polystyrene for easy insertion into most soil. They may be purchased blank or preprinted in one or two colors. Our fade resistant pens (See pg. 34) can be used to write on these stakes.

**Injection Molded Stakes** are made of heavy-duty plastic from 55 mil to 70 mil thicknesses. These stakes are sturdy enough to be inserted into most mediums. Surfaces accept writing with fade resistant marking pens. (See pg. 34)

Pressure Sensitive Labels are available for most injection molded stakes.

Please see pages 18 and 19 for appropriate labels.

### T-Stakes

## SATO Kendo, Judo, and PB-2

- Offers a wide variety of print formats
- One and two line handheld labelers
- Label feed slots ensure positive registration
- Print band options for all types of applications
- Reliable and versatile handheld labeling solutions

## Ringer and Rings

The ringer has revolutionized the auto-ringer market with its "pneumatic-like" action and ease of use. From balling and burlapping, to tagging of pots, this tool puts affordability with quality. The "D" shaped ring creates a triangle "△" when attached.

## G7 Auto Ringer and Rings

The application of the self-feeding principle to the familiar hog ring plier meets a need that all users of this fastening method have been waiting for. The auto ringer cuts operating time and costs, and increases savings and profits. A very useful tool on every job within the range of this staple size. The SR8GPL rings for the G7PL are galvanized. The "C" shaped ring creates a circle "○" when attached.

ITEM NO.	DESCRIPTION	SIZE	QTY PACK	WEIGHT/CASE	1-4	5-9	10-19	20+

## The Economy - A SATO Brand Story

Before 1953, "state-of-the-art" plant identification was a white plastic stake and a magic marker. Then along came Economy Label Sales - inventor of the Slip-On® tag. While the technology awed and amazed, decades later it became even more impressive when Economy introduced thermal printed plant tags, a process which truly transformed the landscape of horticulture marketing.

Meanwhile in Japan, Yo Sato, who established SATO in 1940 to manufacture and sell packaging machinery, was developing his own innovative technologies including one of the first hand labelers in 1962 and the world's first thermal transfer label printer in 1979. Today, SATO America manufactures innovative, reliable auto-identification systems and offers complete solutions to businesses by integrating hardware, software, media supplies and maintenance services.

From the beginning, both companies were on parallel paths to leadership in their respective industries: Economy in horticulture and SATO in printing solutions.

Over the years, tagging and labeling has grown to critical proportion for horticulture production and marketing requirements. Today, tracking, shipping, merchandising, marketing and the transactional accounting of plant material are synonymous with profitability.

So, it seems only natural that two industry leaders would come together under the Horticultural Division of SATO America, LLC.

And the rest is history. Economy Labels & Tags - a SATO Brand - specializes in developing and perfecting the solutions that help retailers and growers to flourish, including but not limited to:

- Slip-On® Tags, Pot Tags, Labels, Signage
- Affordable Thermal Printers and Software
- And much more
